JUNE 2, 2008
FOR IMMEDIATE RELEASE**

**MACDERMID TO BEGIN PRODUCING OFFSHORE PRODUCTS IN
SAO PAULO, BRAZIL**

MacDermid, Incorporated announced today that MacDermid Offshore Solutions has commenced manufacturing its offshore fluid products in Sao Paulo, Brazil at the MacDermid Anion facility. The MacDermid Anion manufacturing facility offers the identical high quality products currently being manufactured at its facilities in Pasadena, Texas and Wigan, England.

Mark Hollinger, President of MacDermid Offshore Solutions commented, "I am very pleased with the operation that we have established in Brazil and the great job the team has done in engineering a high quality manufacturing process. Our customers have been looking for us to establish a manufacturing presence locally to meet their future needs and I am confident we have the capability to meet their requirements now and in the future."

MacDermid Offshore Solutions provides products and services for the offshore oil industry, worldwide. Our market leading Oceanic and Erifon water-based fluids are used for hydraulic control of valves in offshore drilling and production systems.

MacDermid, Inc. is a leading global provider of high value-added specialty chemicals and technical services. MacDermid serves the metal and plastics finishing, electronics, oil production and drilling, and graphic arts markets. Established in 1922 MacDermid employs over 2,500 in operating facilities in over 20 countries.

Please feel free to contact Mark Hollinger at (713) 472-5081 ext. 225 with any questions.
